

At A+ Skills Tutoring, we understand the dedication, commitment, and patience required for student with learning challenges and special needs.

SERVICES OFFERED:

We are pleased to offer services including but not limited to autistic, ADHD, and ADD students, as well as students with other learning challenges of any age or grade level.

SUBJECTS:

We will tutor any Special Needs student at any grade level for any subject! For more information on subjects for elementary, middle, and/or high school, please see the additional attached flyers by school level.

ABOUT OUR SPECIAL NEEDS TUTORS:

Several members of our professional staff are special needs education experts, having had both special education training as well as teaching experience. They utilize those experiences as they tutor your student, and their experiences have made them sensitive to the nuances of this special group of children. In addition, we are aware of many of the grant and financial assistance programs for these students that will ease your financial burden. We work as a team to assist your special needs student in overcoming their academic challenges!

WORKING WITH YOUR EDUCATORS, IEPs, & 504 LEARNING PLANS:

At A+ Skills, we work with your student's teacher(s), psychologist(s), guidance counselor(s), and principal in developing a learning plan that will best suit your special needs student's needs. We do our absolute best to base our learning plan and teaching strategies around any input your student's educators may provide, as well as follow the guidelines of their already instituted IEP or 504 Learning Plans.

WORKING WITH OUR TEAM, SCHEDULING, & STUDENT COMMITMENT:

Scheduling:

Flexible to your needs, including the specific number of days students work in the office with their tutors, as well as the days and times of their sessions. Elementary students are encouraged to attend at least one or two hour-long sessions per week for the best learning outcomes.
